[Ten Pieces - more songs and activities to try](#)

[Videos and Ideas about key pieces of music](#)

Here are some things you can think about when listening to music:

Could you write your own words to the same tune?

Can you talk about the song/piece using musical terminology? E.g. what instruments are used? What is the tempo? Describe the dynamics.

Does the music inspire you to create a piece of art? Will you use pencils, paint, collage, photography?

Can you play along to any part of the song or add your own rhythms or tune? You could make instruments; use an instrument you already have or even just body percussion!

Do you like the piece? Why? Why not? How does the piece make you feel? What mood does it create?

Who composed the piece? When? What was happening in the world when this piece was written?

Do you recognise the piece? Where from? Does it remind you of anything?

SONGS TO LISTEN TO AND JOIN IN

Have a listen to some of these songs and join in. Some come with activities you could try!
